EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Claim 14, line 2, "the" has been deleted;

line 4, "the" has been deleted;

line 5, "." has been changed to --,--;

line 8, "." has been changed to --,--;

line 12, "the" (last occurrence) has been deleted;

line 13, "ISB" has been changed to --LSB--;

line 13, "the" (third occurrence) has been deleted;

line 15, "the" has been changed to --a--;

Claim 15, line 3, "CPCM" has been changed to --DPCM--;

Lines 6-7 have been deleted;

Claim 16, line 2, "the" has been deleted; and

Claim 18, line 2, "the" has been deleted.

2. The following is an examiner's statement of reasons for allowance: Claims 14-20 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach a transmitting apparatus wherein a

digitized television IF signal is transformed into a transport channel bit-stream for transmission, comprising a splitter, an encoder DPCM-core, an output, a first location clipping detector and a first location substitutor all together as claimed. The closest prior art, Van Buul (Hybrid D-PCM, a Combination of PCM and DPCM), discloses conventional DPCM transmission, either singularly or in combination, fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
